EXEO Wins Award for The Second Consecutive Year at Service Now Japan's Hackathon 2022

EXEO Group, Inc. head office: Shibuya-ku, Tokyo; Tetsuya Funabashi, President; hereinafter "the Company announces that it participated in the ServiceNow Japan Hackathon* 2022, an event for developer community of ServiceNow Japan, and won third place at the event.

Including EXEO, a record 26 teams participated in the event held on August 25, 2022. At the event, each company was to come up with an idea about hybrid networks, the theme for this year's event, and turn the idea into an application in a short amount of time on the PaaS Now Platform offered by ServiceNow.

At the results presentation, we earned the following evaluation, and received an award for the second year in a row, after finishing second in 2021.

- Makes great use of ServiceNow functionality
- Idea and technical ability are excellent, with a high-degree of completion that could be commercialized immediately
- Data is utilized and linkages among various applications are achieved

From left, second place from 2021 and third place from 2022

As a Premier sales and service partner with ServiceNow, we are supporting the introduction of ServiceNow by working to automate and streamline operations in a variety of settings, such as IT system operations for client companies, help desk operations, management and other desk work, and on-site reporting. We will continue our efforts, aiming to come together as a Group and help solve our customers' problems.

*"Hackathon" is a portmanteau of "hack" and "marathon." It is a software-related project event where programmers and project managers in the software development field work intensively. It is a contest that produces new innovations, with participants intensively developing software in a short amount of time.
