Launch of Collaboration for Popularizing and Spreading Gachaco Station

EXEO Group, Inc. (head office: Shibuya-ku, Tokyo; Tetsuya Funabashi, President; hereinafter "the Company") announces that it has begun to collaborate with Gachaco, Inc. (Kazunari Watanabe, CEO) in popularizing and spreading battery exchange stations (Gachaco Station) for electric motorcycles and others operated by Gachaco, by taking advantage of its ability to connect and integrate diverse engineering through innovation, which is the Company's strength.

By installing Gachaco Station and performing maintenance, the Company will attempt to resolve issues through its engineering and contribute further to building a decarbonized society, aiming to achieve its vision, "Engineering for Fusion~ Connecting our world - to all our tomorrows ~."

Battery exchange station for electric motorcycles, etc.

At this station, anyone can easily replace the battery of an electric motorcycle that is emitting a clunking sound (*gacha* in Japanese).

This station will be set up in various parts of a city, allowing users to exchange batteries without worrying about the remaining battery level.

Ceremony for launching the battery sharing service for electric motorcycles (Oct. 25, 2022)

- About Gachaco, Inc.

Gachaco started with a business of providing a sharing service using standardized swappable batteries for electric motorcycles. In the future, Gachaco will not only expand the service to diverse mobility services but will also create new applications, including household storage batteries and power supply for use in the event of a disaster.

Gachaco will create a smart and clean society where people can move around freely with a sense of security.
